

Dalapro Medium

- A grey allround hand filler
- Suitable for walls and ceilings on most common substrates
 - Approved for embedding papertape
 - For new construction and renovation

Dalapro Medium

Ready-mixed filler for concrete, fabrics, renovation etc

PRODUCT INFORMATION

Dalapro Medium is a grey, ready-mixed, allround hand filler on all common types of indoor wall and ceiling surfaces. The product is suitable for first filling, joint filling and thin smoothing in both renovation and new construction. The filler is suitable for paper tape embedding according to the requirements set in EN 13963. The product fulfills CE marking requirements according to EN 13963 and is manufactured in accordance with ISO 9001 and ISO 14001.

Tools are to be cleaned in water. Large volumes of waste can be deposited as normal refuse at municipal refuse facilities. The plastic in the packaging is recyclable and must therefore be taken to the appropriate recycling point or municipal recycling plant.

INSTRUCTIONS

Apply by hand on clean, dry and firmly attached surfaces at a minimum temperature of +5°C. The filled surface is sanded when it has dried. Use sandpaper with particle size 100-120. Eye protection and a dust mask are recommended when sanding. Dust off before the next treatment. Filled surfaces should be primed before wallpapering.

CONSUMPTION OF MATERIAL

Joint filling on plasterboard = approx. 0.3 l/m.

DRYING TIME

The drying time is dependent on substrate, layer thickness, temperature, air humidity etc.

STORAGE

Protect from frost and direct sunlight. Filler is perishable and therefore labelled with a date of production. Unopened packs can be stored for 12 months. Visit www.dalapro.com for further information.
